How to contribute to the Spoke6_MOST_CNMS Community on Zenodo in 10 steps

Andrea Solieri | asolieri@unimore.it

Login into Zenodo for institutional partners

non institutional partners should
create an account

Set profile visibility as “Public”

The screenshot shows the Zenodo user interface. At the top, the Zenodo logo is on the left, and a search bar, 'Communities', and 'My dashboard' links are in the center. On the right, a user profile dropdown menu is open, showing options like 'Profile', 'Change password', 'Security', 'Notifications', 'Linked accounts', 'Applications', 'GitHub', and 'Log out'. A yellow star with the number '4' is placed above the dropdown, and a red arrow points from it to the 'Profile' option. Below the header, the 'My account' section is visible. On the left, a 'Settings' sidebar lists 'Profile', 'Change password', 'Security', 'Notifications', 'Linked accounts', 'Applications', and 'GitHub'. The main content area is divided into two sections: 'Profile' and 'Preferences'. The 'Profile' section contains fields for 'Username' (asolieri), 'Full name' (Andrea Solieri), 'Affiliations' (University of Modena and Reggio Emilia), 'Email address' (andrea.solieri@unimore.it), and 'Re-enter email address' (andrea.solieri@unimore.it). At the bottom of this section are 'Cancel' and 'Update profile' buttons. The 'Preferences' section contains 'Profile visibility' (with 'Public' selected), 'Email visibility' (with 'Public' selected), and 'Preferences locale' (set to 'en'). A yellow star with the number '5' is placed next to the 'Public' radio button under 'Profile visibility', and a red arrow points from it to the button. Below the 'Public' option, a note states: 'Public profiles can be found by other users via searches on username, full name and affiliation. Hidden profiles cannot be found by other users.'

Upload the file (of your dataset or publication) on Zenodo and fill out all the fields

The image shows the Zenodo user dashboard for Andrea Solieri, a user from the University of Modena and Reggio Emilia. The dashboard includes a search bar, navigation links for 'Communities' and 'My dashboard', and a profile section with a 'New upload' button. A yellow star with the number 8 and a red arrow points to the 'New upload' button. Below the profile section, there is a search bar for uploads and a 'Sort by' dropdown menu set to 'Newest'.

The image shows the Zenodo upload form. The 'Files' section is expanded, showing a 'Drag and drop files' area and an 'Upload files' button. A yellow star with the number 9 and a red arrow points to the 'Upload files' button. Below the 'Files' section, the 'Basic information' section is expanded, showing fields for 'Digital Object Identifier' (DOI), 'Resource type', 'Title', 'Publication date', and 'Creators'. The 'DOI' field has a 'Copy/paste your existing DOI here...' button. The 'Resource type' field is a dropdown menu. The 'Title' field is a text input. The 'Publication date' field is a text input with the value '2024-04-10'. The 'Creators' field is a text input with a '+' button to add more creators.

The image shows the Zenodo draft and visibility settings. The 'Draft' section is expanded, showing 'Save draft', 'Preview', and 'Publish' buttons. The 'Visibility' section is expanded, showing 'Files only' and 'Public' options. The 'Public' option is selected, indicating that the record and files are publicly accessible. The 'Options' section is expanded, showing an 'Apply an embargo' button and a note that record or files protection must be restricted to apply an embargo.

OPEN IS THE NEW BLACK
Make the MOST of Open Science practices

Andrea Solieri | asolieri@unimore.it

Reviewers' comment about Open Science

Some spoke has already implemented an excellent approach to promote Open science, with open data links as well as publishing open codes in GitHub or other sharing platforms. It is recommended that all Spoke6 to read follow:

Moreover, it is recommended to organise training sessions or workshops on effectively implementing Open Science and FAIR Data principles, to establish a mechanism to monitor and assess the implementation of these
