

# PROTOCOL OF DATA RECORDING FOR THE RECOGNITION OF FAMILIAR SPEECH IN THE PRESENCE OF COMPETITIVE NOISE

## I. Registration chart no.

|   |   |   |   |   |   |   |   |   |   |
|---|---|---|---|---|---|---|---|---|---|
| 0 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| 0 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| 0 | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |

Date: \_\_\_\_\_ Date of birth: \_\_\_\_\_

Sex: F ( ) M ( ) Telephone: \_\_\_\_\_

E-mail: \_\_\_\_\_

Address: \_\_\_\_\_

**Familiar speaker:** Sex: F ( ) M ( ) : Father/Mother ( ) Husband/Wife ( ) Brother/Sister ( ) Grandfather/Grandmother ( ) Uncle/Aunt ( )

## II. Audiometry

| Auditory Threshold  | 250 Hz | 500 Hz | 1000 Hz | 2000 Hz | 3000 Hz | 4000 Hz | 6000 Hz | 8000 Hz | SRT | SRI |
|---------------------|--------|--------|---------|---------|---------|---------|---------|---------|-----|-----|
| RE : AIR CONDUCTION |        |        |         |         |         |         |         |         |     |     |
| BONE CONDUCTION     |        |        |         |         |         |         |         |         |     |     |
| LE : AIR CONDUCTION |        |        |         |         |         |         |         |         |     |     |
| BONE CONDUCTION     |        |        |         |         |         |         |         |         |     |     |

STR= speech threshold recognition; SRI = speech recognition index; RE = right ear; LE = left ear.

## III. Speech recognition in the presence of competitive noise test

### RIGHT EAR

| Standard speech   | White noise |       |       | Speech competitive noise |       |       |
|-------------------|-------------|-------|-------|--------------------------|-------|-------|
|                   | 40dB*       | 50dB* | 55dB* | 40dB*                    | 50dB* | 55dB* |
| Correct answers   |             |       |       |                          |       |       |
| Incorrect answers |             |       |       |                          |       |       |

\*Above the SRT

| Familiar speech   | White noise |       |       | Speech competitive noise |       |       |
|-------------------|-------------|-------|-------|--------------------------|-------|-------|
|                   | 40dB*       | 50dB* | 55dB* | 40dB*                    | 50dB* | 55dB* |
| Correct answers   |             |       |       |                          |       |       |
| Incorrect answers |             |       |       |                          |       |       |

\*Above the SRT

### LEFT EAR

| Standard speech   | White noise |       |       | Speech competitive noise |       |       |
|-------------------|-------------|-------|-------|--------------------------|-------|-------|
|                   | 40dB*       | 50dB* | 55dB* | 40dB*                    | 50dB* | 55dB* |
| Correct answers   |             |       |       |                          |       |       |
| Incorrect answers |             |       |       |                          |       |       |

\*Above the SRT

| Familiar speech   | White noise |       |       | Speech competitive noise |       |       |
|-------------------|-------------|-------|-------|--------------------------|-------|-------|
|                   | 40dB*       | 50dB* | 55dB* | 40dB*                    | 50dB* | 55dB* |
| Correct answers   |             |       |       |                          |       |       |
| Incorrect answers |             |       |       |                          |       |       |
