

General Questionnaire

How difficult was it to make a diagnosis?

very easy	easy	moderate	difficult	very difficult
☐	☐	☐	☐	☐

Did you perceive one of the three cases as easier compared to the others?

no ☐ yes ☐

If yes, which one?

- ☐ the first one
- ☐ the second one
- ☐ the third one

Did you perceive one of the three cases as more difficult compared to the others?

no ☐ yes ☐

If yes, which one?

- ☐ the first one
- ☐ the second one
- ☐ the third one

At which point your subjective confidence rating was elevated versus reduced?

if elevated?

- ☐ when I knew this case from literature
- ☐ when I knew this case from practical experience
- ☐ other _____

if reduced?

- ☐ when the number of symptoms was too high versus low
- ☐ when I didn't know this case from practical experience
- ☐ other _____

Did you generally have missed additional information?

yes ☐ no ☐

If yes, which one?

- ☐ further symptoms
- ☐ medical tests
- ☐ subjective information (e.g. posture, skin color, etc.)
- ☐ possibility for further inquiries
- ☐ other _____

How many of your patients are multimorbid? (please have a guess)

< 25%	up to 25%	up to 50%	up to 75%	> 75%
☐	☐	☐	☐	☐

How realistic was this experiment?

absolutely realistic	very realistic	moderate realistic	rather not realistic	not at all realistic
☐	☐	☐	☐	☐
